Inclusive Research Environments & Broadening Participation

Friday, May 7th, 12:30-1:30 p.m.

Dr. Leo Taylor

Dr. Taylor will explore how various forms of bias are barriers to creating diverse, inclusive and equitable research environments. This seminar will address simple strategies that can be implemented to expose and mitigate bias.

Dr. Marcela Hernandez

Dr. Hernandez will explore systemic issues and identify strategies to address these problems. This seminar will showcase examples of successful programs and initiatives to broaden participation in STEM.
